## REQUEST FOR QUOTATION RFQ N° UNFPA/MDA/RFQ/2024/005

Dear Sir/Madam,  
UNFPA hereby solicits a quotation for the following service:

**“Support Youth Centers Network in delivering mobile youth work activities”.**

UNFPA requires the provision of complex services to support Youth Centers Network in delivering mobile youth work activities.

### I. About UNFPA

UNFPA, the United Nations Population Fund (UNFPA), is an international development agency that works to deliver a world where every pregnancy is wanted, every childbirth is safe and every young person’s potential is fulfilled.

To read more about UNFPA, please go to: [UNFPA about us](#)

### Service Requirements/Terms of Reference (ToR)

#### **Objectives and scope of the Services**

**Objective:** Supporting the Youth Centers Network in providing mobile youth work activities to young people residing in remote areas or facing limited opportunities.

UNFPA Moldova is seeking to engage a company or non-governmental organization to assist in enabling the Youth Centers Network to deliver mobile youth work activities targeting young people residing in remote areas or facing limited opportunities. Depending on the specific location, mobile youth workers may operate in various settings such as parks, urban or rural gathering spaces, public administration buildings, schools, clubs, etc. These mobile youth workers, often comprising young volunteers, primarily aim to establish connections with young individuals within their comfort zones.

The mobile youth work program implemented by the youth centers also aims to enhance the visibility of the Youth Center by delivering activities and spaces genuinely attractive and welcoming environments that actively contribute to the personal development of young people. These spaces offer opportunities for both learning and recreational activities.

The provision of mobile youth work services will be a collaborative effort between the youth centers, local partners, and the utilization of information and communication technology (ICT). ICT will play a pivotal role, offering a wide array of possibilities, ranging from online communication for information and consultation to the creation of virtual youth centers.

#### **Background information**

Providers of youth services play a significant role in the field of education. The formal educational system is still not fully equipped to adequately address the specific needs of young individuals. These needs encompass various aspects, including career planning, equipping young people with the skills needed for a more competitive integration into the labor market, promoting familiarity with new information technologies and communications, creating opportunities for leisure and recreational activities, preventing violence, and promoting a healthy lifestyle.

Simultaneously, there is a pressing need to establish institutional mechanisms and tools aimed at increasing youth participation in community life and the decision-making process. Now more than ever, it is crucial for young people, especially those who have been marginalized, to actively engage in decision-making at all levels. This imperative takes on particular significance in the context of striving to achieve the Sustainable Development Goals.

The provision of high-quality services for young people at the local level, along with the diversification of opportunities for their participation and engagement within the community, plays a vital role in the development and success of young individuals. Simultaneously, the existing youth infrastructure, including Youth Centers, serves as a pivotal community entity. These centers, in collaboration with schools, local public authorities (LPAs), non-governmental organizations (NGOs), and other local partners, facilitate the practical application of young people's knowledge and the cultivation of their participation skills in community life. To support young individuals in their development and in becoming engaged citizens within their community, it is imperative to foster close collaboration among key local stakeholders.

The Ministry of Education and Research initiated the National Development Program of Youth Centers in 2017, and since its inception, the National Youth Agency has taken over its management as of 2022. Their joint objective is to enhance local youth services.

The United Nations Population Fund (UNFPA) and the Swiss Cooperation Office in Moldova (SCD) have emerged as key partners within the framework of the "Joint Fund for Youth Empowerment in Moldova" project. They are actively supporting the state's endeavors to develop and reinforce the capabilities of Youth Centers throughout the country under this program. Their role includes the development of human resources within the Youth Centers and the strengthening of services provided to young people, including those who are most vulnerable.

The purpose of the Joint Fund is to strengthen participation and civic involvement of young people through Youth centers that will provide development opportunities personal, participation, information and socializing for young people and want to contribute to the creation of synergies and partnerships between Centers of youth, schools and other key local actors.

Duration: January 2023 - December 2026.

Implementing agency: UNFPA Moldova.

Final beneficiaries: young people of age 14-35 years old, including the most vulnerable.

Direct beneficiaries: Youth Centers; Local Public Authorities.

Coverage: entire territory of Republic of Moldova.

Impact: The Republic of Moldova has established a functional network of Youth Centers that provide safe and welcoming spaces for young people. These centers offer opportunities for personal development, active participation, access to information, leisure activities, and social interaction. As a result, young people from the Republic of Moldova actively participate and engage in civic activities at both the local and national levels, contributing to the development of their communities and the entire country.

### Financial Evaluation

Price quotes will be evaluated only for bidders whose technical proposals achieve a minimum score of **70 points in the technical evaluation**.

Price quotes will be evaluated based on their responsiveness to the price quote form. The maximum number of points for the price quote is 100, which will be allocated to the lowest total price provided in the quotation. All other price quotes will receive points in inverse proportion according to the following formula:

$$\text{Financial score} = \frac{\text{Lowest quote (\$)}}{\text{Quote being scored (\$)}} \times 100 \text{ (Maximum score)}$$

### Total score

The total score for each proposal will be the weighted sum of the technical score and the financial score. The maximum total score is 100 points.

$$\text{Total score} = 70\% \text{ Technical score} + 30\% \text{ Financial score}$$

### VII. Award Criteria

In case of a satisfactory result from the evaluation process, UNFPA intends to award a Professional Service Contract on a fixed-cost basis to the Bidder(s) that obtain the highest total score.

### VIII. Right to Vary Requirements at Time of Award

UNFPA reserves the right at the time of award of contract to increase or decrease by up to 20% the volume of services specified in this RFQ without any change in unit prices or other terms and conditions.

### IX. Payment Terms

UNFPA payment terms are net 30 days upon receipt of invoice and delivery/acceptance of the milestone deliverables linked to payment as specified in the contract.

### X. Fraud and Corruption

UNFPA is committed to preventing, identifying, and addressing all acts of fraud against UNFPA, as well as against third parties involved in UNFPA activities. UNFPA's policy regarding fraud and corruption is available here: [Fraud Policy](#). Submission of a proposal implies that the Bidder is aware of this policy.
